

# CUSTOM SHOWER 1

PAGE 1 OF 4

For Custom Shower 1, Advocate used the KBRs Point Drain System center drain model for an existing shower alcove remodeling job. We used 12x24 inch floor tiles, bullnosed wall base tiles and Silverado TEC brand grout.

Advocate Insurance Restoration & Remodeling proudly uses

KBRs products WITH PERMISSION OF KBRs®

KBRS, TEC and Laticrete products with a custom granite dam were used here, and a brushed nickel tile edge give it the modern look the owner wanted.

We used the same custom granite for the base in the shampoo/product niche, and the customer chose their own fixtures to complete this installation

The customer also wanted a high CFM rated ventilation fan in the ceiling, and were very happy with the results of the job. And we were happy with the referrals the job and the customer generated for us after....!!!
