

BACKSPLASHES

Folks, face it – your wife REALLY wants a new backsplash.....and most backsplashes take only two days, some three, but immediate gratification and the instant WOW factor are icing on the cake in a whole lot of full or partial kitchen remodels.

A backsplash with an inlay like this took a whole week, but this one we did made RI MONTHLY magazine... Wahoo!!

Inlays add personality, no doubt about it. It is pretty easy to schedule a backsplash job, so give us a call for a design and a quote.
