Dr. Kathy Feldman, CIH/PHD  
Applied Microbiology Services, LLC, Colchester, CT

I have known Todd Pascoe for about 15 years. His sites are consistently well managed. He often proofs his work product on mold cleanup sites by doing air sampling prior to having post clearance testing done at them. I can recommend him.

Dr. James Cloutier, MD/DPM  
Woonsocket, RI

I have had Todd Pascoe's companies do at least a half dozen emergency response jobs between my medical office and my family residence. He has always handled them well, often on really tight time tables. When we had our office remodeled, we had him run HEPA containments there so we could continue to run our practice. Excellent service and an excellent resource.

Rhonda Morrill, VP  
Narragansett Properties

Our firm manages close to 300 properties on the RI coast. Todd Pascoe's companies Noreaster Disaster Restoration and the Advocate Companies were often doing three to five jobs at a time for us, and he often needed to find the cause of the problem. He has the right detection and analytical equipment, knowledge and experience to handle emergency work sites.

Amy Devereaux  
North Smithfield, RI

Todd Pascoe did our master suite shower, tile work and Brazilian Koa flooring. We had an attic A/C system malfunction right over the suite about a year later. His company Advocate Insurance Restoration did the dryout, saved the flooring and handled the rebuild work resulting. We needed him two other times as well for other projects. Ex-military like us, very disciplined, good communication with us as well as our insurance company. Recommended.

Joanne Forti, Touchstone Crystal  
Narragansett, RI

My husband and I met Julie Pascoe through high school sports fundraising committees before we needed Todd Pascoe's company Noreaster Disaster Restoration to do two large water damage jobs for us. We then had him do the flooring in all four bedrooms in our house during a remodel. After that we needed him to do my father's kitchen that had a hidden water leak and mold inside and behind upper cabinets. Good community people, ex-military like us, and focused on good results.

Dave LaChance  
D. LaChance Custom Homes

I met Todd Pascoe sometime around 2005. I was stuck for a floor and tile guy and brought him in. He did ALL the tile and flooring work for me for about four years after that until his water damage and mold business got too big to take on subcontractor work. He still wrote insurance job rebuild estimates for me for about 15 years total and handled restoration and mold work all over the state for people I sent him to. Well qualified and reliable.
